

Anindita Bhattacharjee

Undergraduate Student

Email: bhattacharjeeanindita762@gmail.com

GitHub: github.com/Anindita-Bhattacharjee-12

Personal Website: <https://anindita-bhattacharjee-12.github.io/>

Location: Kuril, Dhaka

RESEARCH INTERESTS

Computer Vision, Agentic AI, Explainable AI in Healthcare, Machine Learning

EDUCATIONAL BACKGROUND

Bachelor of Science in Computer Science and Engineering

2022–2026

American International University–Bangladesh (AIUB)

Thesis Prospective Title: "From Reactive to Proactive: Wearable-Based Therapist Intervention Prediction for Children with ASD"

GPA: 3.97 (Completed 145 credits out of 148 credits)

RESEARCH EXPERIENCE

Research Intern

Jan 2026 – Apr 2026

Department of Deep Learning and Computer Vision

Advanced Machine Intelligence Research Lab (AMIR Lab)

- Conducted grid-based spatial analysis to identify and localise copy–recall divergence within ROCF drawings, demonstrating that higher divergence is concentrated in structurally complex regions rather than following a simple geometric gradient.
- Developed the Memory Loss Gap metric to quantify region-level differences between copy and recall deviations, enabling the generation of participant-specific spatial forgetting maps.

RESEARCH PAPERS

- Anindita Bhattacharjee, Sultanul Arifeen Hamim, M. F. Mridha, and Md. Jakir Hossen, "SpatioTrace: An Interpretable Framework for Copy-Recall Divergence Analysis in ROCF Drawings" Manuscript prepared in IEEE TNSRE format, ready for submission.
- Anindita Bhattacharjee, et al. Prospective Title: "From Reactive to Proactive- Wearable-Based Therapist Intervention Prediction for Children with ASD" Undergraduate thesis manuscript in progress.

PROJECTS

- **Agricultural Disease Diagnosis with GAN-Based Synthetic Data Augmentation:**
github.com/Anindita-Bhattacharjee-12/Agricultural-Disease-Diagnosis-With-GAN-Based-Synthetic-Data-Augmentation
- **A Comparative Study of Machine Learning and Deep Learning:**
github.com/Anindita-Bhattacharjee-12/A-Comparative-Study-of-Machine-Learning-and-Deep-Learning-for-Brain-Tumor-Detection
- **Mapping Symptom Propagation Pathways of Anxiety, Stress and Depression Using Network and Causal Discovery Methods:**
github.com/Anindita-Bhattacharjee-12/AcademicMindPath-BangladeshPrivateStudent
- **Real-Time Digit Detection:** github.com/Anindita-Bhattacharjee-12/Real-Time-Digit-Detection
- **Women Safety Portal:** github.com/Anindita-Bhattacharjee-12/Women-Safety-Portal
- **AI-Powered Project Management Assistant:** github.com/Anindita-Bhattacharjee-12/AI-Powered-Project-Management-System-Documentation
- **AI Content Detection:** github.com/Anindita-Bhattacharjee-12/AI_Content_Detection
- **Layers of Sylhet:** github.com/Anindita-Bhattacharjee-12/LayersOfSylhet

TECHNICAL SKILLS

- **Programming Languages:** C++, Java, C#, Python, R, SQL
- **Web Technologies:** HTML, CSS, JavaScript, PHP
- **Database Management:** Database Design and Optimization
- **AI & ML:** Machine Learning, Deep Learning, Computer Vision
- **Tools & Technologies:** Git, XAMPP, MATLAB, AutoCAD (basic CAD design)
- **Research Skills:** Technical Writing, Presentation, Experimental Design

AWARDS

Dean’s Honor List for Academic Excellence 2023-2026
Faculty of Science and Technology, American International University-Bangladesh
Awarded in: Fall 2023–24, Spring 2023–24, Fall 2024–25, Spring 2024–25, Fall 2025–26

Merit-Based Academic Scholarship 2023-2026
Faculty of Science and Technology, American International University-Bangladesh

SOFT SKILLS

- Team Leadership & Communication
- Problem-Solving & Critical Thinking
- Time Management & Adaptability
- Research & Analytical Thinking

EXTRA-CURRICULAR ACTIVITIES

AIUB Programming Girls’ Competition (Certification) 2024
AIUB CS Fest (Participant) 2024
